SUBJECT: BLUE LANTERN LEVEL 3: PRE-LICENSE END-USE CHECK
ON APPLICATION 050172197

REF: 2006 BLUE LANTERN GUIDEBOOK

¶1. This is an Action Request. See paragraphs 2-4.

¶2. The Department's Office of Defense Trade Controls Compliance (PM/DTCC) requests Embassy's assistance in conducting a pre-license check on application 050172197 for the export of thermal camera systems to Pakistan. Post is requested to complete this Blue Lantern check within 30 days. Lack of response to a Blue Lantern check will affect pending and future licenses involving parties to this license.

¶3. Reason for request: sensitive commodity and lack of documentation from the Pakistan Ministry of Defense (PMOD). Also, foreign end-user, Advanced Engineering Research Organization (AERO) and foreign consignee, Sofema S.A. have appeared on previous licenses but the companies' bona fides have not been verified by a Blue Lantern check.

¶4. ACTION ISLAMABAD: Post is requested to make inquiries with appropriate GOP officials to determine if the PMOD ordered the thermal camera systems from AERO and if so, verify the amount, and that the items will be used for the purpose stated on the license. PM/DTCC also requests that post conducts a site visit to AERO in order to provide Department with an assessment of its business operations and on-site security. Finally, post is asked to assess whether the company appears to be a reliable recipient of USML items. If a site visit is not possible, please inform the PM/DTCC officer.

The following questions are provided as suggested guidance:

(For AERO)

--Does the company have supporting documentation for this proposed transaction?

--Does the company have secure facilities and proper accounting and security procedures for handling sensitive USML items?

--What is the exact end-use for this USML item?

--What is the nature of the company and when was it established? Who are its principals?

--What type of organizations are among its typical customers and where are the customers located?

--Does the company understand the restrictions on United States Munitions List (USML) items, especially the prohibition against unauthorized re-transfer and re-export?

ACTION PARIS: Post is requested to make inquiries with GOF officials in order to establish the bona fides of this proposed transaction. PM/DTCC also requests that post conducts a site visit to Sofema S.A. in order to provide Department with an assessment of its business operations and on-site security. Finally, post is asked to assess whether the company appears to be a reliable recipient of USML items. If a site visit is not possible, please inform the PM/DTCC officer.

The following questions are provided as suggested guidance:

(For Sofema S.A.)

--Does the company have supporting documentation for this proposed transaction? What is the end-use?

--What specific role will Sofema S.A. play in the proposed transaction?

--Does the company have secure facilities and proper accounting and security procedures for handling sensitive USML items?

--What is the nature of the company and when was it established? Who are its principals?

--What type of organizations are among its typical customers and where are the customers located?

--Does the company understand the restrictions on United States Munitions List (USML) items, especially the prohibition against unauthorized re-transfer and re-export?
END ACTION
